

Professional Summary

Business Systems and Operations Analyst with 3 years of experience supporting technology platforms, recurring performance reporting, data quality, fraud analysis, and cross-functional operations. Uses SQL, Power BI, Excel, Tableau, and database systems to monitor service levels, investigate operational issues, and turn data into clear business decisions.

Skills

Business & Systems: Business analysis, process improvement, requirements support, operational reporting, data quality
Platforms: JIRA, Zendesk, Lucidchart, Microsoft Visio, Google Workspace

Data & BI: SQL (MySQL, SQL Server, PostgreSQL), Power BI, Tableau, Microsoft Excel
Methods: KPI reporting, data validation, issue documentation, cross-functional collaboration

Professional Experience

OPERATIONS ANALYST & FRAUD DETECTION SPECIALIST | ID.me | McLean, VA

SEPT 2021 - JULY 2024

- Delivered daily, weekly, and monthly SQL and Power BI reporting that gave operations teams recurring visibility into service levels, workloads, performance metrics, and business activity.
- Monitored internal platforms and dashboards to surface operational issues, document findings, and coordinate timely escalations with cross-functional teams.
- Validated database records, resolved data-quality issues, and maintained reliable reporting inputs used in operational processes.
- Investigated suspicious activity and analyzed behavioral patterns, contributing to a 15% improvement in fraud-detection accuracy within six months.

SELF-EMPLOYED PHOTOGRAPHER | Northern Virginia

JULY 2024 - PRESENT

- Manage client communication, scheduling, project scope, editing workflow, and final delivery for independent photography engagements.
- Track bookings, deadlines, expenses, and client requirements while coordinating multiple projects and maintaining timely service.

Selected Projects

[MEDICAL APPOINTMENT NO-SHOW ANALYSIS | MYSQL + TABLEAU](#)

- Cleaned and analyzed 110,519 appointment records, engineered scheduling lead time, and used CTEs and window functions to calculate prior patient attendance history.
- Built a Tableau dashboard showing a 20.19% no-show rate, operational risk tiers, neighborhood patterns, and appointment-level follow-up views.

[DATA PROFESSIONAL SURVEY ANALYSIS | POWER BI](#)

- Prepared 630 survey responses and built an interactive Power BI dashboard comparing reported salaries, programming-language preferences, work-life balance, and career-entry difficulty.

[BIKE SALES DASHBOARD | MICROSOFT EXCEL](#)

- Built an interactive Excel dashboard using PivotTables, PivotCharts, calculated fields, and slicers to compare customer demographics and purchase behavior.

Education

BACHELOR OF SCIENCE IN INFORMATION SYSTEMS AND OPERATIONS MANAGEMENT | George Mason University | Fairfax, VA
