

Professional Summary

Business Systems and Operations Analyst with 3 years of experience supporting technology platforms, operational reporting, data quality, fraud analysis, and cross-functional operations. Uses SQL, Power BI, Excel, Tableau, and database systems to monitor performance, investigate issues, and turn operational data into clear business decisions.

Skills

Business & Systems: Business analysis, process improvement, requirements support, operational reporting, data quality, cross-functional collaboration
Data & BI: SQL (MySQL, SQL Server, PostgreSQL), Power BI, Tableau, Microsoft Excel, data visualization
Platforms & Process: JIRA, Zendesk, Lucidchart, Microsoft Visio, Agile project management
Productivity: Google Workspace, ChatGPT, Claude

Professional Experience

OPERATIONS ANALYST & FRAUD DETECTION SPECIALIST | ID.me | McLean, VA SEPT 2021 - JULY 2024

- Monitored internal platforms and dashboards to identify trends in system performance, service levels, workloads, and operational issues.
- Produced daily, weekly, and monthly reports using SQL and Power BI to track performance metrics and business activity.
- Partnered across teams to maintain databases, improve data quality, and support reporting and operational processes.
- Documented system outages and operational issues, then communicated findings and escalations to internal teams.
- Investigated suspicious activity and supported analysis that improved fraud-detection accuracy by 15% within six months.

Selected Projects

MEDICAL APPOINTMENT NO-SHOW ANALYSIS | MYSQL + TABLEAU

- Cleaned and analyzed 110,519 appointment records, engineered scheduling lead time, and used CTEs and window functions to calculate prior patient attendance history.
- Built a Tableau dashboard showing a 20.19% no-show rate, operational risk tiers, neighborhood patterns, and appointment-level follow-up views.

DATA PROFESSIONAL SURVEY ANALYSIS | POWER BI

- Prepared 630 survey responses and built an interactive Power BI dashboard comparing reported salaries, programming-language preferences, work-life balance, and career-entry difficulty.

GLOBAL LAYOFFS DATA CLEANING | MYSQL

- Created an analysis-ready table using a staging workflow, CTEs, window functions, duplicate removal, field standardization, null handling, and date conversion.

BIKE SALES DASHBOARD | MICROSOFT EXCEL

- Built an interactive Excel dashboard using PivotTables, PivotCharts, calculated fields, and slicers to compare customer demographics and purchase behavior.

Education

BACHELOR OF SCIENCE IN INFORMATION SYSTEMS AND OPERATIONS MANAGEMENT | George Mason University | Fairfax, VA
